

Abhishek Kumar

Senior Software Engineer | Backend & Data Platforms

Email: abhishek@email.com | Phone: +91-XXXXXXXXXX | GitHub | LinkedIn

Professional Summary

Senior Software Engineer with 7+ years of experience designing scalable backend systems, distributed architectures, and real-time data platforms. Experienced in building production-grade ML pipelines, cloud-native services, and high-performance microservices for large-scale applications.

Skills

- 1 Python, SQL, Data Structures & Algorithms
- 2 Kafka, Apache Flink, Distributed Systems
- 3 Docker, Kubernetes, Cloud (GCP)
- 4 System Design, Microservices, MLOps

Experience

- 1 Senior Software Engineer – Confluent (2022–Present): Designed real-time data pipelines and ML platforms processing millions of events daily.
- 2 Software Engineer – Tech Company (2019–2022): Built scalable microservices and backend systems used by thousands of users.
- 3 Software Engineer – Startup (2017–2019): Developed APIs, databases, and production infrastructure.

Education

B.Tech – Indian Institute of Technology (IIT Delhi)
